

Concrete Hoppers

Concrete Hopper - The self-dumping hopper accessory could automatically activate to both dump and release as the bumper release touches the side of a dumpster. When unloading is completed, the hopper is able to return to original upright and locked position. This particular piece of machinery is likewise available together with a cable that enables operation from the seat of the lift truck to be able to have the choice of manually dumping the hopper. There is a locking chain provided to lock the hopper to the fork truck. This particular product is made with consistent and reliable robotic welds for utmost strength. The lift truck dumping hopper even has a blue powder coat finish to maintain durability.
